Admiral Stansfield Turner  
Director  
Central Intelligence Agency  
Washington, D.C. 20505

Dear Admiral Turner:

This last week it was my opportunity to visit the Central Intelligence Agency, arranged [redacted]

[redacted] I had several informative conversations and was especially encouraged at the prospects of our establishing a Cooperative Education Agreement between Texas A&M University and the Central Intelligence Agency.

During the course of my visit, I had a tour and explanation of the services at your computer center. A young man in that office [redacted] was the host for myself and [redacted] did an outstanding job in providing a layman's point of view on the operation of that center. He should be congratulated for the fine work he is doing at the CIA.

Through [redacted] and others, Texas A&M University has enjoyed an outstanding relationship with the CIA and indeed we have numerous graduates within your ranks. We are pleased at this relationship and hope that there will be other ways, such as through our CO-OP Program for it to be continually strengthened.

Very sincerely yours,

*J. Malon Southerland*
